C. HAFNER Electroplating:
Competence, modern technology
and know-how in surface-coating.

C. HAFNER Electroplating

Competence, modern technology and know-how in surface-coating.

The domain C.HAFNER creative specially address to goldsmiths, designers and jewellers with minor individual quantities.

We guarantee: competence, modern technology as well as the know-how of our very experienced employers for your platings. Our efficiency covers normal platings just as exotic processes like for example rhodium black or plating engold.

We plate new as well as second-hand jewellery. Therefore you have the option between two types of efficiency:

- **For all clients who require only our service electroplate we offer our standard package.**
- **For all clients who require also preparations like polishing etc. we offer our all-inclusive package.**

Easy structure of prices offer you a prompt calculation. Especially with small quantities you profit from not having a minimum order value.

The C. HAFNER coatings:

- **Silver**
- **Gilding or Plating:**
1N14 / 2N18 / finegold / rosé
- **Gilding no. 110**
- **Engold**
- **Palladium**
- **Platinum**
- **Rhodium**
- **black Ruthenium**
- **black Rhodium**

We plate:

- **Precious Metals**
- **Steel and high grade steel**
- **Non precious metals**
- **Special materials after arrangement**

Ring with people: Dieter Dill Design
Napkin ring: Horst Max Lebert
